- 15 FEATURE**
Working sick
 With 'presenteeism' estimated to cost UK employers up to 1.8-times the financial burden of sickness absence, consultant occupational physician Nerys Williams looks at how it is measured and whether it is always bad.
- 19 FEATURE**
Absence in the NHS
 Almost four years after Dr Steve Boorman delivered his recommendations to improve staff health and wellbeing in the NHS, and reduce the relatively high levels of sickness absence, the latest absence data finds that rates are rising again. Paul Suff investigates why the NHS is finding it hard to reduce overall levels of non-attendance.
- 24 FEATURE**
International OH systems: Italy
 Occupational physician Marcello Campagna and his colleagues outline the Italian approach to providing occupational health services and consider the legacy of celebrated physician, Bernardino Ramazzini.
- 29 FEATURE**
Going paperless
 The occupational health department at East Kent Hospitals University NHS Foundation Trust has made the transition from paper-based to fully digital OH records. Systems integration and data manager Karen Wyatt, and OH nurse consultant Emma Palmer explain how they did it.
- 32 FEATURE**
Rehabilitation in complex cases
 LJ Conradie and Catharina Andrew discuss the case of a woman returning to work after suffering brain damage caused by carbon monoxide poisoning, which was complicated by her pre-existing mental health problems.
- 34 FEATURE**
Funding OH research
 Jackie Douglas, director of the Colt Foundation, explains how her organisation is funding OH innovation, and how to apply for research grants and studentships.
- 37 RESEARCH DIGEST**
 ... pain symptoms overdue ... stress indicator tool ... paediatric professionals' health ... asbestos burden ... hygiene matters ... better in class
- 40 RESEARCH PLUS**
 Our compendium of published evidence on occupational health.
- 43 BRIEFING**
 ... your need-to-know guide to this issue
