**03** LEADER

## **Evidence-based practice**

Is there enough evidence to do the job?

**04** NEWS

... NICE to have you back at work – sickness absence evidence review ... seven days is too long – CBI absence survey ... quality appointment – director of NHS Plus OH clinical effectiveness unit ... campaign to close DDA 'loophole' ... bullying and threats common in SORB cases – workplace discrimination on grounds of sexual orientation, religion and beliefs ... DRC threatens sanctions ... tackling violence and harassment ... revitalised approach to worker involvement ... employers should help smokers quit, says NICE ... NHS getting stress sorted

**10** LEGAL NEWS

... reasonable adjustments: when does the duty arise? – *Smith v Network Rail Infrastructures Ltd* ... Appeal Court upholds O'Hanlon judgment – *O'Hanlon v Commissioners for HM Revenue & Customs*

**12** FEATURE

## **Complaints against OH professionals**

Given their role in fitness for work assessments, OH professionals may sometimes face vexatious or even malicious complaints from disgruntled individuals. Rachel Suff examines the current procedures set up to investigate complaints against OH professionals and explores whether the GMC's recent fitness-to-practise reforms are working.

**17** FEATURE

## **Occupational driving on non-public roads**

Occupational driving presents special risks to health and safety – especially when it involves vehicles and transport on non-public roads. Andrew McGregor and Neville Byrne review the background and principles of relevance to setting health standards for occupational drivers in the airport environment.

**21**

## FEATURE

### **Call centre absence monitoring**

Can call centres improve the process of managing absence in the NHS? Peter Verow, Gerard Woodroof and Simon Hill discuss the results of a pilot study.

**24**

## FEATURE

### **Burnout in the medical profession**

Work pressure, the working environment and lack of support can all contribute to the development of burnout in physicians. Maurice De Valk and Lotte Oostrom review current literature and discuss approaches to prevention and management.

**29**

## FEATURE

### **Motherhood and menopause**

Rising maternal age and the fact that more women than ever are working through the menopause and into older age are prompting OH professionals to look again at the workplace health needs of women workers. Sarah Silcox examines the evidence.

**32**

## EXPERT WITNESS

### **Sex discrimination**

Pregnancy, gender and gender reassignment. Britain's anti-discrimination laws now extend to protecting workers who have undergone gender reassignment. Diana Kloss explains.

**34**

## RESEARCH DIGEST

... doctors' working hours ... injury risks for hospital workers ... firefighters' injury risk ... infection control complementary therapies ... CBT for trauma victims ... HAVS study ... smokers make poorer workers

**38**

## RESEARCH PLUS

Our compendium of published evidence on OH

**40**

## BOOKSHELF & DIARY

... flexible working for carers ... managing stress at work ... occupational cancer ... key events in OH

**43**

## BRIEFING
