- 11 FEATURE**
Best foot forward
 Clothing and footwear firm Nike has taken the bold step of publishing a 'warts and all' report on the working environment in its contractors' factories. It follows a similar publication last year from Gap. Paul Suff looks at how the biggest global brands are managing occupational health and safety in the factories of their suppliers in developing countries.
- 16 FEATURE**
Too tired to work
 In the first of a two-part series on chronic fatigue syndrome, Becky Allen looks at the continuing controversy surrounding the condition and the role of OH professionals in helping sufferers get back to work.
- 20 FEATURE**
Multidisciplinary OH&S services
 Karen Niven argues that role overlap and even 'turf wars' may be preventing the goal of multidisciplinary working in occupational health and safety from becoming a reality?
- 23 CONFERENCE REPORT**
Controlling risks at work
 Key papers at the BOHS annual conference include the Dutch approach to controlling asthma risks in the baking sector, the efficiency of protective gloves in the printing industry, and the HSE's Disease Reduction Programme. John Ballard reports.
- 28 DILEMMA**
Disability and the Armed Forces
 Is it right that disabled applicants to the Army, Navy and Air Force are excluded from employment rights protection under the Disability Discrimination Act? Or do the demands of armed conflict justify the special exemption of the Armed Forces? Ian Gemmell and Michelle Valentine argue for and against the status quo.
- 30 EXPERT WITNESS**
Difference of opinion
 What should employers do when confronted with differing medical opinions from their OH physician and the employee's GP. Diana Kloss explains the legal position.
- 32 RESEARCH DIGEST**
 ... HSE stress filters ... effort–reward imbalance ... tetanus immunisation ... verbal and physical assault ... health and wealth inequalities ... worried well ... back pain rehab ... heavy thinking
